Dear Friends and Neighbors:

If you'd prefer not to be on this type of email (I rarely send them), let me know.

US Senator Sheldon Whitehouse will be hosted by Brook Byers and several others on Weds, April 19th at 6PM at the Rosewood Hotel and by myself and others on Thurs, April 20th at 8am for breakfast at the Hyatt Regency SFO. I hope that you can join us at one of these meetings. Please let me know if you can.

Senator Whitehouse is an American hero because of his relentless advocacy for intelligent policy related to climate change. He is the leader of smart climate policy in the Senate, where he struggles every day to win over moderates of both parties to take action to improve policy that will address this critical challenge.

Here is an exceptional video where he addresses in a very balanced way the effects of climate change on our oceans. I hope you'll watch and share this less than 5-minute video **www.youtube.com/watch?v=oesVa13NTPM&t=4s**

Please join us to hear from Senator Whitehouse next Weds PM or Thurs AM. While this is a fundraiser for his Senate campaign, you are welcome to come and decide what and if you want to contribute after you hear him. Donations can be made online at **https://secure.actblue.com/contribute/page/byers4.19.17**

Please let me know if you will be able to attend either gathering.

Thanks, Rick
